### **V-COMM Awarded Middlesex County 700 MHz Radio System Design Contract**

*Middlesex County, New Jersey (July 29, 2008)* - V-COMM, an industry leading telecommunications engineering firm, with offices in Cranbury, NJ and Blue Bell, PA, received a contract through the public bidding process from Middlesex County, NJ for 700 MHz Radio System Design and RPC and FCC Applications required by Middlesex County to expand their current 800 MHz system. V-COMM recently completed a Radio Spectrum Study for the County's Public Safety communications, and was happy to be awarded this contract and continue working for Middlesex County.

"V-COMM is intimately familiar with the current Middlesex County public safety radio communications network as well as 700/800 MHz characteristics within the County," says Dominic Villecco, V-COMM Founder and President. "We are also familiar with the topography, demographics, potential tower locations, and other factors within the County which will prove to be invaluable in this project."

V-COMM is a leading provider of integrated network engineering, radio frequency engineering, and business services. V-COMM delivers the needed expertise and cost-effective solutions to governmental agencies and wired and wireless operators. Company executives are much sought-after expert witnesses providing testimony on telecommunications issues in local, regional, national, and international venues. V-COMM has a growing staff of nearly 50 engineers and professionals with offices in Cranbury, NJ and Blue Bell, PA. For more information, visit us on the World Wide Web at [www.vcomm-eng.com](http://www.vcomm-eng.com).
