FOR IMMEDIATE RELEASE

## **OCEAN COUNTY, NJ HIRES V-COMM FOR RADIO FREQUENCY CONSULTING SERVICES**

*Ocean County, NJ (September 12, 2008)* – V-COMM, a leading New Jersey based telecommunications engineering firm, has been hired by Ocean County to provide Radio Frequency engineering and consulting services. There are many facets to this contract including; representing the County with respect to Digital Television (DTV) transitions, advising the County in regards to the 2013 mandate on narrow band transition for Public Safety communications, and renewals, and reviewing the Countywide Interoperability Plan to maintain communications with municipal and other local and state agencies.

“In 2004, V-COMM was hired by Ocean County to evaluate the government’s communications system and to develop a long-range plan for more effective and efficient growth for the future,” says Robert Bruno, Division Director of Wireless Technology for the County. “We are happy to have them back for this new contract, so we can take the County’s communications to the next level.”

“Communications technology is constantly evolving,” says Dominic Villecco, V-COMM President and Founder. “It’s important for County governments to stay up-to-date as communications are a key factor in keeping the public safe. I am proud of the work V-COMM performs, helping governments help their residents.”

V-COMM is a leading provider of integrated network engineering, radio frequency engineering, and business services. V-COMM delivers the needed expertise and cost-effective solutions to governmental agencies and wired and wireless operators. Company executives are much sought-after expert witnesses providing testimony on telecommunications issues in local, regional, national, and international venues. V-COMM has a growing staff of nearly 50 engineers and professionals with offices in Cranbury, NJ and Blue Bell, PA.
