Lower Merion Township, PA Awards V-COMM Contract for a Radio System Study

Lower Merion, PA (February 4, 2008) - V-COMM, a leading telecommunications engineering firm with offices in Blue Bell PA, received a contract from Lower Merion Township, PA for a Radio System Evaluation Study for their Public Safety radio networks through a competitive bidding process. V-COMM has completed a comprehensive evaluation and comparison of the Township of Lower Merion's existing conventional and trunked radio systems and evaluated the applicability of using the Montgomery County 800 MHz system. This study gave an evaluation of their communication infrastructure as it currently stands as well as evaluated the future needs of the Township.

With 23.64 square miles, Lower Merion has over 58,000 residents, 2 major hospitals, 7 geriatric care facilities, 60 elementary and secondary schools, 7 institutions of higher education, and 48 churches and synagogues. The Township has 429 full time employees including 139 sworn police officers and 305 part-time/seasonal employees. V-COMM

performed this comprehensive study to ensure the best level of service for both the Township's current and future needs. "Communication is critical in public safety and saving lives. Our goal was to ensure Lower Merion has the communications systems needed to match its demographic and geographic needs." said Dominic C. Villecco, President of V-COMM.

V-COMM is a leading provider of integrated network engineering, radio frequency engineering and business services. It delivers the needed expertise and cost-effective solutions to governmental agencies and wired and wireless operators. Company executives are much sought-after expert witnesses providing testimony on telecommunications issues in local, regional, national and international venues. V-COMM has a growing staff of over 50 engineers and professionals with offices in Cranbury, NJ and Blue Bell, PA. For more information, visit us on the World Wide Web at www.vcomm-eng.com.
