V-COMM Names Panetta CFO/V.P. of Business Services and Sullivan Manager of International Engineering

Warminster, Pa, (June 9, 1997) – V-COMM, a growth oriented telecommunications engineering company announces the addition of Mark Panetta as CFO and Vice President of Business Services and Karen Sullivan as Manager of International Engineering Projects. Panetta joins V-COMM with over 14 years of experience in the finance and accounting field with a primary focus on the communications industry. Panetta's role is to help expand V-COMM's services to its client's offering "back office" contract negotiation, fraud prevention and management.

Panetta served as Vice President of Finance for Wayne, Pennsylvania-based Comcast Cellular Communications where he was responsible for the Accounting and Finance functions while also managing credit and collections, facilities management. He formerly served as Director of Mergers and Preferred Networks, Inc., a nationwide provider of wholesale paging services based in Georgia.

Sullivan previously worked as an engineer for MCI, ARINC Research Corp., RJO System Engineering, and most recently Motorola. At Motorola Sullivan gained experience as a Cellular System Engineer for the high-growth, High-usage nationwide cellular network in Venezuela. She was also Lead Engineering Manager in South America, Central America and the Caribbean where she simultaneously managed and coordinated Staffs from four separate facilities.

"We are very excited to have Mark and Karen join our management team," said Dominic VILLECCO, V-COMM's founder and president. "With Mark superior managerial, interpersonal and negotiating skills, and Karnes's international experience they bring a whole new dimension of excellence to V-COMM."

V-COMM is an engineering firm that provides unparalleled service in telecommunications engineering that is firmly rooted in the realities and challenges of today's business climate. V-COMM's staff of engineers are experienced in personal communications service, cellular, specialized mobile radio, enhanced SMR, paging, wireless data, microwave, fiber optic systems, and SS-7 signaling and switching networks. V-COMM is based in Warminster, Pa. with a branch in Cranbury NJ.
