Donald S. Coover Promoted to VP at V-COMM

Warminster, PA (June 23, 2000)—V-COMM

(www.vcomm-eng.com), a

leader in telecommunications engineering, has promoted Donald S. Coover to Vice President from Director of Engineering.

In his new post, Coover will be at the helm of the network services division, developing new business opportunities with telecommunications service providers. He will also continue to expand V-COMM's services while supporting emerging markets.

In making the announcement, V-COMM founder and President, Dominic Villecco, said, "Within the past several years, the network services division has experienced tremendous growth under Don's leadership. Don has established a reputation as a key figure in this industry, known for his insight and strategic thinking. On a professional and personal level, I'm delighted that he will be leading our network services division into the new millennium, and continuing to strengthen V-COMM's presence in this field even further."

Coover has over 20 years of telecommunications engineering experience, including 10 years in the inter-exchange industry and 7 years in wireless

networking. Prior to joining V-COMM, he was Senior Network Engineer for Comcast Cellular Communications, Inc., in Wayne, PA. He also provided engineering support for the trial of a new single-number service technology.

Before joining Comcast, Coover worked with ITT as Manager of the Network Management Center for Metromedia-ITT, holding several other positions during his 10-year tenure at ITT Communications Services. Coover began his career as a television transmission specialist for WWVU-TV, in Morgantown, WV.

V-COMM is a leading provider of integrated network engineering, radio frequency engineering and business services to the worldwide telecommunications industry. For half a decade, the company has been pioneering high-quality, cost-effective solutions for wired and wireless operators and vendors. V-COMM has designed, implemented, optimized and expanded telecommunication networks for clients around the globe. Company executives are sought-after expert witnesses providing testimony on telecommunications issues in local, regional and national venues. V-COMM, founded by Dominic Villecco and David Stern, has a growing staff of over 50 engineers and professionals in its Cranbury, NJ and Warminster, PA offices.
