## **V-COMM AWARDED BOROUGH OF MADISON CONTRACT TO BUILD COMMUNICATIONS NETWORK FOR FIRE/POLICE**

**BOROUGH OF MADISON, NJ, June 10, 2005** – V-COMM, a leading New Jersey-based telecommunications engineering firm, was awarded a contract from the Borough of Madison to design and build the communications infrastructure for a new Fire/Police building on Kings Road in Madison. The communications system will be moving from its current location in the Hartley Dodge Memorial Building. V-COMM’s role will include designing and installing the communications system in the new facility, including the police dispatch desk, and moving the entire operation to the new building.

“The real challenge in this project is to build this new system and cut the communications over from the old system without experiencing down time,” said JOHN SMITH, TITLE of the Borough of Madison. “We chose V-COMM because of their stellar track record of completing these transitions on time and on budget without any communications down time.”

“It is a fact that communication is critical in ensuring safety. We are excited about the opportunity to establish a world-class communications system for the Borough of Madison’s fire and police facility that will improve safety for everyone,” said Dominic Vilecco, president of V-COMM.

V-COMM, a leading provider of integrated network engineering, radio frequency engineering and business services, delivers needed expertise and cost-effective solutions for wired and wireless operators and vendors. Company executives are much sought-after expert witnesses providing testimony on telecommunications issues in local, regional, national and international venues. V-COMM has a growing staff of over 50 engineers and professionals with offices in Cranbury, NJ and Blue Bell, PA.
