Camden County, NJ extends V-COMM RF Consultant Project

Camden County, NJ (August 29, 2007) - V-COMM, a leading New Jersey based telecommunications engineering firm, has received a contract extension from Camden County, NJ for the continued engineering consulting support of its new Public Safety radio network. In addition to on-going support of the existing Public Safety communications system, V-COMM is supporting the procurement of a new communications system residing on the 700 MHz Public Safety spectrum. V-COMM is providing the County the necessary engineering consulting support for the acquisition of the new system through development of an RFP process, network technology evaluation, and acquisition of spectrum for the County's use through the APCO 700 MHz Regional Planning Committee. "V-COMM is a leading company as far as 700 MHz is concerned. With the release due in February 2009, V-COMM has assisted the County in preparing the needed steps in regards to acquiring these frequencies for public safety," said Dominic J. Vesper, Jr., Deputy County Administrator.

With 37 Fire and EMS departments, 31 Police Departments and several County departments on the existing system, V-COMM is helping the County prepare for the remaining 6 police departments and the necessary capacities for the new system. “Communication is critical in public safety and saving lives. We are ensuring that the new communications system will progress as seamless as possible with maximum interoperability within the County and among neighboring Counties and agencies.” said Dominic C. Villecco, President of V-COMM, and lifelong resident of the County.

V-COMM is a leading provider of integrated network engineering, radio frequency engineering and business services. It delivers the needed expertise and cost-effective solutions to governmental agencies and wired and wireless operators. Company executives are much sought-after expert witnesses providing testimony on telecommunications issues in local, regional, national and international venues. V-COMM has a growing staff of over 50 engineers and professionals with offices in Cranbury, NJ and Blue Bell, PA. For more information, visit us on the World Wide Web at www.vcomm-eng.com.
