FOR IMMEDIATE RELEASE

**V-COMM ASSISTS WITH NEXT STAGE OF P25 PHASE 2 PUBLIC SAFETY  
NETWORK FOR BURLINGTON COUNTY, NEW JERSEY**

**Cranbury, NJ (May 20, 2014)**—V-COMM, an industry-leading telecommunications engineering firm, has been engaged by Burlington County, NJ to implement the next stage of its planned 700 MHz P25 Phase Two Public Safety network. V-COMM’s services include system design, microwave design, site development, engineering specifications and project management.

“We are very pleased Burlington County chose V-COMM to assist with this critical project,” said Dominic Villecco, V-COMM’s president. “We will bring our previous P25 Phase Two network development experience to the table to ensure success for Burlington County’s first responders.”

“We are fortunate to have the help of V-COMM with such a depth of experience in this new technology,” said Richard Dreby, Director of Public Safety Services for Burlington County. “It is imperative we deploy a network that meets the critical demands of our first responders.”

V-COMM is a leading provider of integrated network engineering, radio frequency engineering, and business services, with offices in Cranbury, New Jersey and Exton, PA. V-COMM delivers the needed expertise and cost-effective solutions to governmental agencies and wireless operators. V-COMM also provides design and design/build services for In-building, In-tunnel and other wireless telecommunications networks.
